

Joan Kabayambi, BA IRD, MPHL

TEL: +256 784 114 833 or +256 702 423 380 EMAIL: joankabayambi@gmail.com

Joan Kabayambi is an independent consultant has over 18 years of experience in strategic planning, program management and organization development with both public and private organisations. Joan is a health anthropologist with experiences in research, including commissioning & conducting baseline, midterm & end of project evaluations. She is experienced in community project and programme implementation, monitoring and evaluation, project planning, management, writing reports and dissemination.

Joan's work evolves from working with grass root communities to project/programme level management This enriched her understanding of the dynamics and strategies that facilitate working with communities, local, national and International organizations as well as local government structures. She has also been central in coordinating partnerships and networks with government & non-governmental organizations as well as donors. Joan has led and participated in the design and execution of operational research and other studies within the areas of agriculture, women empowerment, governance, health, education, economic empowerment, water and sanitation and makes recommendations for action.

Ms. Kabayambi brings broad experiences in setting baselines and evaluating projects, using both qualitative and quantitative methodologies, conducting extensive studies, data analysis and report writing. Joan is currently pursuing a PhD in Development studies with special focus on maternal disabilities (obstetric fistula), at Mbarara University of Science and Technology.

She is a graduated of a Master in Public Health leadership MPHL (2009), Post – Masters Fellowship Makerere University-College of Health Sciences School of Public Health

in Health programming and leadership. Post Graduate Diplomas in Project Planning Management (2002), Research Methods (2007), Monitoring and Evaluation (2010), and Human Resource Management
