

MR. INNOCENT "AT A GLANCE"

Brief Bio Innocent Mutuyima

I am proud to introduce Mr. Innocent Mutuyimana To Love Children's new Chief Financial Officer. I have known Innocent in Uganda in 2006 and we have stayed in touch. Today he lives in Rwanda and will add a lot to the growth and financial management of To Love Children. On our first Board of Directors meeting as a new board all new members will be voted to serve for the official corporate minutes.

I have attached Innocent's CV as he has an impressive and extensive background in many areas that serve our NGO well. Speaking with Innocent I told him of the members who also have an impressive financial management background and experience, expertise. We agreed that decisions will be decided with those members who speak the same financial management language in order to get the best of each person's expertise. Our leadership approach is from the bottom up with the local communities

and actors we serve, UN SDGs 2020 guidelines, listening to the children, and our volunteers in order for the board to make the best informed decisions.

Innocent and the board will set the tone for the highest ethical, transparency, accountability standards of not the normal practices but to lead the way and set higher standards for ourselves. Please join me and welcome our new CFO Innocent Mutuyimana.

I encourage you to visit the Board of Directors page on our website to learn more about each other and to start a dialogue that is ongoing, and you will find that your colleagues are people not just you are proud to serve on our board with but most importantly if you met them under different circumstances would become colleagues and friends and enjoy each other time spent together.

Brief Bio Innocent Mutuyima

Finance, Operations, Production, Programs/Projects and Business Coach Strategist background (with a **Management Consulting Expert Etiquette**) supported by a formal education (University education and hands-on trainings in Management. Career focus in Finance, Accounting, Auditing & Fraud Detection, Investigation & Anti-Corruption) and a professional track-record of more than 10 years' hands-on experience in Financial Management, Accounting, Taxation, Auditing, Project Designing, Implementation & Evaluation, Private Sector Development, Entrepreneurship & SMEs Development within both non-profit and for-profit environments.
